Identity Theft to be addressed by the Trenton Computer Festival's Keynote Speaker

The Trenton Computer Festival (TCF2008) will feature as its 2008 keynote speaker David Perry talking on **"*Identity Theft*"**, one of the fastest rising crimes in America as reported by the FBI and CIA. David is Global Director of Education for Trend Micro, an antivirus software company. He is a leading authority on computer security and virus prevention. He has more than 25 years in the technical support and education field and is a top-rated industry speaker having appeared at numerous industry trade shows including RSA, EICAR, AVAR and has even spoken at the White House. He has also been featured on television and radio and in print media interviews. David has been interviewed by *The New York Times*, *The Washington Post*, *Time* magazine, *ZDNet* and other publications. He has appeared on TV and radio all over the world, including *Good Morning America*, BBC News, Fox News and ABC News. He is one of the most quoted experts in the field of computer viruses, malware and security education. At the end of 1999 during the Y2K vigilance, he was on hand in Washington D.C. providing his services as a computer virus expert for the President's Task Force on Y2K Issues. Before joining Trend Micro he worked at Norton on Norton Antivirus, and at McAfee.

David Perry will also speak at the TCF banquet taking place on Saturday April 26th at 6:00 pm at the TCNJ Brower Student Center. Banquet tickets are available in advance for $30.00 and may be ordered at the TCF web site at http://www.tcf-nj.org.

David will speak on ***Identity Theft*** Saturday, April 26th from 2:35 pm to 3:30 pm

There will be more than 70 other talks and workshops at TCF2008 including a presentation by noted voting security and forensic computing expert Dr. Rebecca Mercuri, CTO of Notable Software, Inc. www.notablesoftware.com. Dr. Mercuri will focus on the Dangers of File Sharing, which she believes should be of even greater public concern than identity theft. Since 1998, she has assisted with criminal defense investigations for the NJ Office of Public Defender and on various Federal cases involving murder, financial fraud, child pornography and endangerment allegations.

Many of this year's festival speakers will focus on "Hands-on Experiences". Numerous talks, workshops and special presentations on the main exhibition floor will involve attendees in hands-on activities. Topics to be covered include the latest in computers and consumer electronics technology, digital cameras, video, HD TV, VoIP, MP3 and much more.

Show hours on Saturday, April 26th are 10 am to 5 pm. Sunday show hours are 10 am to 4 pm. The flea market opens at 9 am both days and will be a Rain or Shine event. Indoor exhibits will be held in the Student Recreation Center and speaker sessions will be held in campus classrooms and in the Brower Student Center.

A two-day TCF admission pass is $12.50 if purchased in advance at http://www.tcf-nj.org/, but will be available at the door for $17. Passes for Sunday only are available for $12 at the door.

The IT Professional Conference is from 9 am to 5 pm on Friday, April 25th and is part of TCF's sessions on Saturday, April 26th – for more information and registration details see http://princetonacm.acm.org/tcfpro/.

For advance tickets or additional information, please call the Trenton Computer Festival show management office at (201) 825-2229 or visit http://www.tcf-nj.org/ for more information.
